Full-Time Internship Opportunity:

Care to work at a Bootstrapped Start-up!

ExpertBridge Pioneer Internship – AI-Powered Human Connection and Cognitive Engagement.

About ExpertBridge:

Join ExpertBridge and help redefine the future of expert matching, outreach automation, and AI-powered digital interaction platforms. Work with passionate founders and a select team of driven engineers solving high-impact challenges that mainstream products haven't dared to tackle.

Internship Duration:

8–12 weeks (extendable for breakthrough contributors) starting in November 2025.

Location:

Remote-first, with online team hackathons.

Why Join ExpertBridge?

- **Build for impact:** Your product launches, your AI models power real results, and your innovations transform the way industries connect — a bold reimagining of professional engagement, a next-generation alternative to existing professional platforms.
- **Solve “impossible” problems:** Pioneer new approaches to automated vetting, video AI interviews, and hyper-personalized outreach.
- **Engage with experts:** Get global AI experts to review and guide at regular intervals.
- **Team up with others:** Join other to move fast, co-create bold ideas, and drive the evolution of cutting-edge products.
- **Get ownership:** Your work matters. Pitch your ideas, own features end-to-end and see your product deployed
- **Grow exponentially:** AMA sessions with AI leaders - all focused on personal growth and future-proof skills.

What You'll Do:

- Prototype and launch proprietary AI tools (outreach, interview scoring, workflow automation)
- Deep-dive into NLP, multi-modal AI (video/audio/text), smart pipelines, and scalable backend
- Build “from scratch”, showcase your breakthroughs, get feedback, iterate fast
- Push boundaries—not just features, but real product innovation
- Architect and implement solutions.

<https://www.expertbridge.co/>

Ideal Fit:

- Hunger to learn, create, question your own best ideas, iterate and own real-world impact
- Interest in AI/ML, automation, cloud engineering, or product at scale
- Comfortable with ambiguity and rapid change—prefer “finding answers” over “doing what’s told”. We want you to question everything and not merely follow directions.
- Prior hackathon/projects beats GPA—show us what excites you!
- Up to four interns will be placed in a slack community to brainstorm and work on this project.
- Current student from IITs specifically Mumbai, Delhi, Madras and Kanpur campus will be preferred.

Selection:

- Lightning assignment: Solve one cool challenge
- Rapid video interview: 10 minutes, show your passion & portfolio
- Quick founder chat: Explore fit and vision alignment

Compensation & Perks:

- Stipend: ₹7,500/month
- Letter of Recommendations, Bootstrapped Start-up Experience and Networking opportunity with global experts
- Pre-placement/return offer for stars

Application:

- Email: [letusbuild@expertconnect.in and expertbridge25@gmail.com] with your project portfolio or one “crazy idea” with of AI
- Rolling selection: Early birds get priority for next sprint

Ready to build the future with us? Apply now. Let’s create what “big tech” can’t!
